P R E F A C E.

THE following is the second volume of the complete General Index which it is proposed to issue to the names of all the artists whose works are represented in the Department of Prints and Drawings.

It contains the French Schools, the names being arranged in alphabetical order, and the various classes of work by which each name is represented being set forth according to the same plan as is carried out in the practical arrangement of the collections themselves. The nature of that plan has been fully explained in the preface to the former volume.

A certain degree of incompleteness in the columns giving dates of births and deaths is accounted for by the difficulty which often occurs in procuring biographical information concerning living artists, of whom a very considerable number are represented in this School.

On the whole, of all the great European Schools, the French is that least adequately illustrated in the Museum Collections; and it must be a matter of time and effort to secure for it a more complete representation.

The present Index was in the first instance compiled by Mr. LIONEL CUST, formerly Assistant in the Department of Prints and Drawings, and now Director of the National Portrait Gallery; and has since, under the supervision of the Keeper, been revised by Mr. LAWRENCE BINYON, Assistant in the Department of Prints and Drawings.
